

## Student Wireless Printing

Once connected to DSnet, students can print from their own mobile devices by utilizing "Mobility Print" by PaperCut MF

<http://mpsetup.densem.edu>

You can print using any of these devices, with the same credentials you use for MyDenSem, Dmail and Moodle:

Windows

mac OS

macOS

iOS

Android

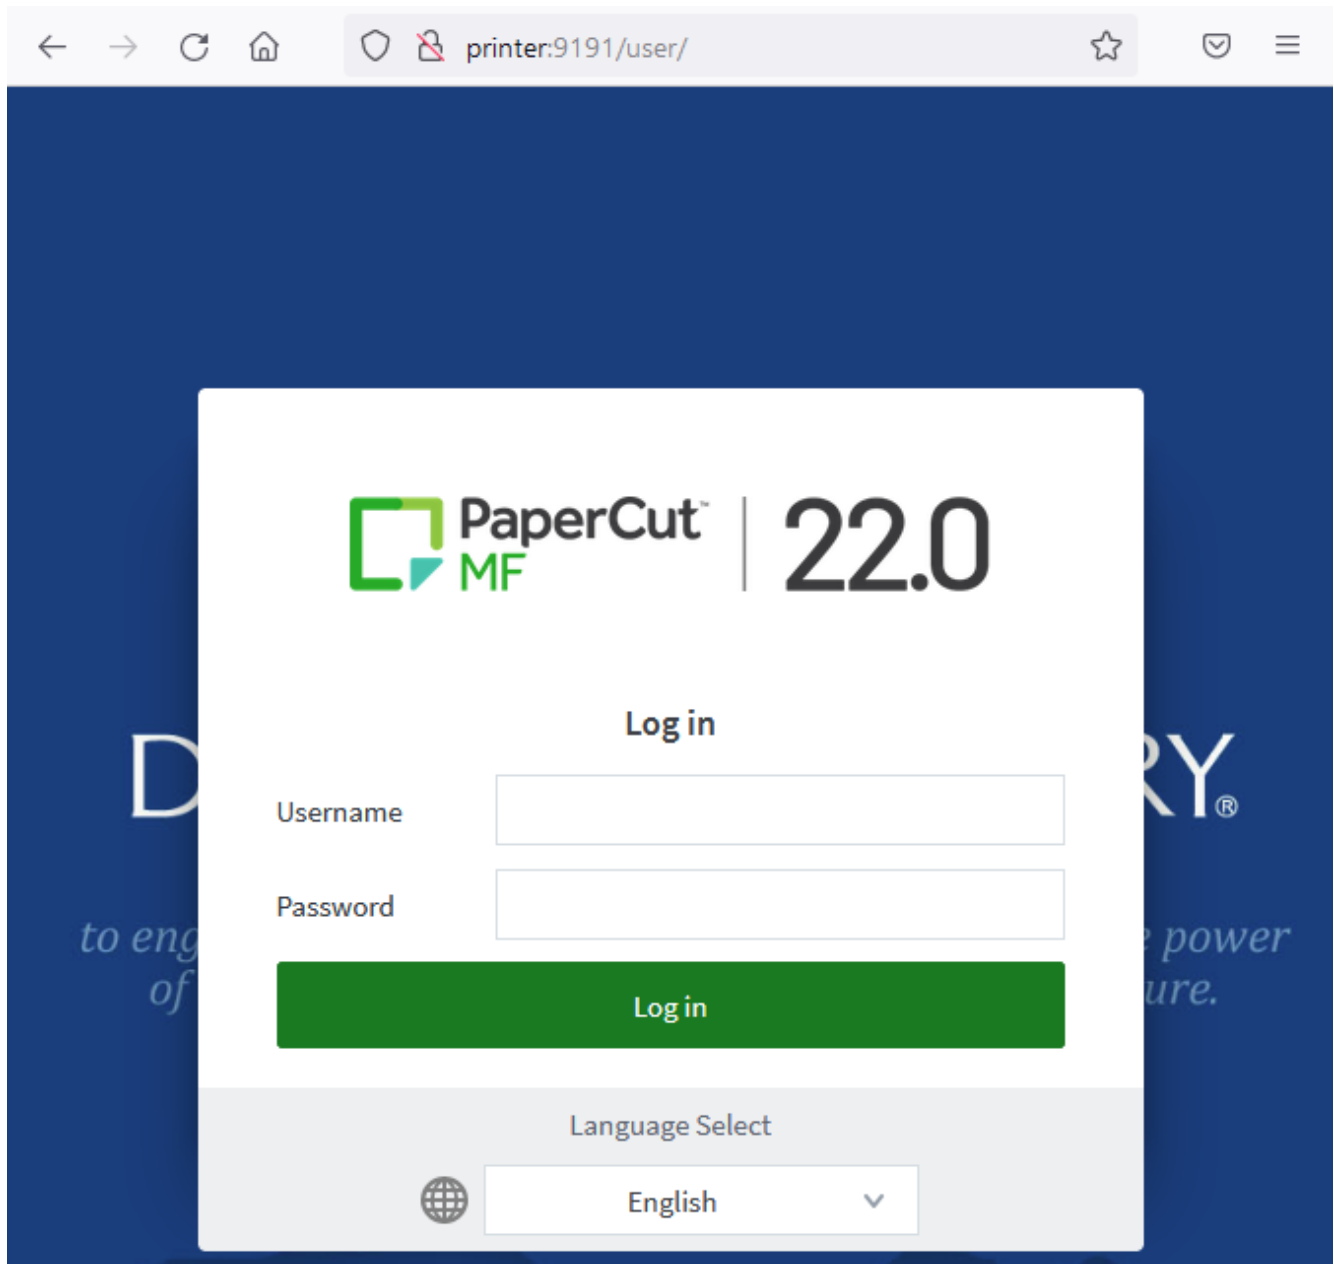

Chrome OS

Black and white print/copy jobs will deduct 10 cents per side, color will be 15 cents per side from the student's print/copy (PaperCut) account.

To access your account, go to:

<http://mpaccount.densem.edu>

The image shows a browser window with the address bar displaying "printer:9191/user/". The main content area features a white login form centered on a dark blue background. At the top of the form is the PaperCut MF logo and the version number "22.0". Below this is the heading "Log in". There are two input fields: "Username" and "Password". A green "Log in" button is positioned below the password field. At the bottom of the form, there is a "Language Select" section with a globe icon and a dropdown menu currently set to "English".

Again, you can access your account by using the same credentials as MyDenSem, Dmail and Moodle
